TAXI CABS

Taxicab information for the region is minimal. The only jurisdiction in Planning District 16 that monitors and provides some semblance of regulation on taxicabs is the City of Fredericksburg. For those taxicab companies doing business within the City of Fredericksburg, the city is divided into three zones: there are specific charges to travel either within one city zone or from one zone to another. In addition, there's a fuel surcharge (currently a flat rate of \$2.00) added to each trip. For those trips originating within the City but whose destination is beyond the City of Fredericksburg limits, the rate/charge for the trip is completely negotiable between the passenger and a taxicab company's dispatch (or with the driver him/herself.) There are added charges for additional passengers and/or waiting time. All information specific to a ride request should be clear and a cost agreed upon prior to any passenger entering a taxicab. There are no regulations at all for any taxicab company located in and doing business within the Counties of Caroline, King George, Spotsylvania and Stafford.
